

Diorama Accessories

EN. Vallejo Scenics is a new range of diorama bases and accessories. The assortment includes reproductions in 1/35 scale of urban elements, modern, as well as from WWII, designed to provide the setting and details for vignettes and dioramas and as background for figures and vehicles. The Scenics products are suitable for use as simple bases or can be further enriched with shrubbery, trees, telegraph posts, street lights, military equipment and figures, or with sections of ruined walls and buildings, in fact with the addition of as many complements as considered right for the scenery suggested. The bases and accessories are precast in a novel and exclusive type of lightweight resin which has a matte white finish and is easy to cut and adapt to different sizes; the material permits sanding and painting as well as any further weathering processes.

ES. Vallejo Scenics es una nueva gama de bases y accesorios para dioramas, que incluye reproducciones a escala 1/35 de escenarios, así como complementos urbanos tanto modernos como de la II Guerra Mundial, diseñados para detallar y ambientar dioramas, viñetas y vehículos. Las referencias de bases pueden utilizarse para ubicar figuras, vehículos y tantos complementos como el modelista decida, así como secciones de edificios, ruinas, muros, ambientación natural, árboles, postes telegráficos, farolas, etc... Las piezas han sido moldeadas en una nueva resina ligera fácil de cortar y lijar, presentando un acabado blanco mate, el cual facilita la posterior utilización de pintura y procesos de envejecido.

EN. Not suitable for children under 14 years. Please note that some of the listed models require assembly. ES. No adecuado para menores de 14 años. Algunas referencias requieren el montaje de algunos elementos.
