## Earth and rock-covered bases with vegetation

This step-by-step guide shows you how to easily create and paint earth and rock-covered bases. In addition, we will use different combinations of tufts and see how they can change the final appearance of the scene.

Jon Gómez (Pintureando.com)

- 1 First, Earth Texture Brown Earth 26.219 is applied all over the base and small stones or pieces of cork are placed on the surface.

- 2 The rocks are painted using Surface Primer Black 70.602.

- 3 Once dry, the rocks are painted using Model Color Neutral Grey 70.992.

- 4 A black wash is applied on the rocks using Game Wash Black 73.201.

- 5 Then a sepia wash is applied over the earth using Game Wash Sepia 73.200.

- 6 Using a flat brush, the rocks are dry-brushed with Game Color Cold Grey 72.050.

- 7 To provide some extra contrast, the rocks are dry-brushed a second time with Game Color Stonewall Grey 72.049, although this time only on some of the edges.

- 8 The edge of the base is painted using Model Color German Camouflage Black Brown 70.822.

- 9 PVA glue is applied to some parts of the base.

## Earth and rock-covered bases with vegetation

10 Static grass flock is sprinkled over the areas covered in PVA glue.

11 Tufts from Vallejo's Scenery range are then added. In this case we have used Wild Tuft Mixed Green SC416.

12 Here you can see multiple combinations of different tufts from Vallejo's Scenery range. This is Wild Tuft Green SC406 mixed with static grass flocks.

13 Here is a base finished only using Wild Tuft Green.

14 Another combination, this time using Wild Dark Moss SC402 and Wild Tuft - Mixed Green SC416.

15 The combination of Wild Tuft Light Green SC407 and Wild Tuft Dense Beige SC412, gives a very dry-looking base.

16 You can also add fantasy tufts to simulate alien planets. In this case, Fantasy Tuft Neon SC430 has been applied.

17 On this base Fantasy Tuft Fire SC431 has been used.

18 Finally, an example of a base using Fantasy Tuft Blue SC434.
